

Arjun Sharma

Software Development Engineer

arjun.sharma@gmail.com · +91-98765-43210 · LinkedIn: /in/arjunsharma · GitHub: github.com/arjunsharma · Bengaluru, India

SUMMARY

Results-driven SDE with 2 years of experience building scalable backend systems at a fintech startup. Strong foundation in Data Structures & Algorithms (solved 450+ LeetCode problems). Proficient in Java and Python with hands-on experience in microservices, REST APIs, and cloud deployments.

EXPERIENCE

Software Development Engineer

PayFast India Pvt. Ltd. · Bengaluru · Jul 2023 – Present

- Designed and implemented a transaction reconciliation microservice in Java Spring Boot, reducing settlement discrepancies by 35%.
- Optimised SQL queries and added Redis caching layer, cutting API response time from 420ms to 80ms for high-traffic endpoints.
- Built CI/CD pipeline using GitHub Actions + Docker, reducing deployment time from 2 hours to 12 minutes.
- Collaborated with a team of 6 engineers in agile sprints, consistently delivering features on schedule.

Software Engineering Intern

TechNova Solutions · Remote · Jan 2023 – Jun 2023

- Developed RESTful APIs in Node.js/Express for a logistics tracking dashboard used by 10,000+ daily users.
- Wrote unit and integration tests (JUnit, Mockito), achieving 85% code coverage on assigned modules.

EDUCATION

B.Tech – Computer Science & Engineering

PES University · Bengaluru · 2019 – 2023

- CGPA: 8.7 / 10 · Relevant courses: Algorithms, OS, DBMS, Computer Networks

SKILLS

Languages	Java, Python, C++, SQL
Frameworks	Spring Boot, Node.js, Hibernate
Databases	MySQL, PostgreSQL, Redis, MongoDB
Tools	Docker, Git, GitHub Actions, Postman, Linux
Concepts	DSA, System Design (basics), REST APIs, Microservices, OOP, Multithreading

PROJECTS

Distributed Rate Limiter

Personal Project · GitHub · 2024

- Built a token-bucket rate limiter using Redis + Java, capable of handling 50,000 req/sec with sub-ms latency.
- Explored sliding window and fixed window algorithms; documented trade-offs in a detailed README.

ACHIEVEMENTS & CERTIFICATIONS

- LeetCode: 450+ problems solved, Knight rating (1850+)
- AWS Certified Cloud Practitioner (2024)
- Finalist – Smart India Hackathon 2022 (National level)
