ABOUT ME

Results-driven AI & ML student with a strong interest in developing intelligent applications and working with data-driven systems. Possessing foundational knowledge in programming and analytical thinking, and actively building skills through hands-on projects. Aiming to secure an internship to apply my abilities in a professional environment and grow into a skilled AI engineer.

EDUCATION

Higher Secondary Education (12th Grade) Jun 2021- Mar 2023

Sacred Heart English Medium Higher Secondary School

Year Of Graduation: 2023

Percentage: 95%

B.tech in Artificial Intelligence And Data Science Sep 2023 - Apr 2027

St. Joseph's College of Engineering and Technology, Palai (Autonomous)

Expected Graduation: 2027

CGPA: 7.3

TECHNICAL SKILLS

- Python
- Data Science
- Machine Learning
- Object-Oriented Programming
- Data Structures,
- Algorithms
- GitHub
- Basic Data Analysis
- Computer Networks

PROJECTS

Ai Based Interview Preparation Tool

- Python, Machine Learning, NLP, LLM Models
- Developed a tool providing interview questions and answers
- Implemented topic-wise categorization and quiz functionality
- Designed to improve interview readiness

Smart Rainfall Predicting System

- Python, Machine Learning
- Developed a model to predict rainfall using historical weather data
- Applied basic data analysis and machine learning techniques

Ocean Plastic Monitoring System

- Python, Machine Learning, Computer Vision
- Currently developing a system to monitor and track plastic waste in ocean environments
- Designed to support environmental analysis and pollution control

ADDITIONAL INFORMATION

Languages: English, Malayalam.

Certifications:

- Machine Learning with Python – IBM (Coursera)
- Python for Data Science, AI & Development – IBM (Coursera)
- What is Data Science? – IBM (Coursera)
- Artificial Intelligence Course (30 Hours) – ipsr solutions ltd
- Object Oriented Programming using Python – Infosys

Awards/Activities:

- Volunteer – Code Crafters, ASTHRA 9.0
- Participant – NASA International Space Apps Challenge 2025
- Participant – NASA International Space Apps Challenge 2024
- Participant – AI and Industry (Tathva'23)
