

Education

BTECH IN ARTIFICIAL INTELLIGENCE AND DATA SCIENCE – SJCTET PALAI

2023-2027

Skills

Python Libraries: pandas, numpy, matplotlib,seaborn,sklearn, EDA,jupyter notebook,ML	R Programming Packages: dplyr, shiny, ggplot2, tm, tidyr	Excel Tools: Pivot Table, Pivot Chart, VLOOKUP, HLOOKUP, VBA
Power Bi Tools: DAX, API, Power Query	SQL Software: SQLite, MySQL	

Projects

Sales & Profit Analysis Dashboard – Personal Project

August 2025

- Built an interactive Power BI dashboard to analyze sales, profit, and regional performance trends.
- Performed data cleaning and exploratory data analysis using Python and Pandas.
- Created KPI reports and visualizations to identify high-performing products and business opportunities.

Customer Churn Analysis – Personal Project

September 2025

- Analyzed customer churn data using Python and SQL to identify retention-related trends.
- Performed data preprocessing, visualization, and trend analysis using Pandas and Matplotlib.
- Generated business insights and dashboards to highlight churn patterns and customer behavior.

Netflix Data Analysis – Personal Project

November 2025

- Conducted exploratory data analysis on Netflix movies and TV shows dataset using Python.
- Created visual reports and dashboards to analyze genres, ratings, and content growth trends.
- Used Matplotlib and Pandas for data visualization and insight generation.

Work Experience

Data Analytics & AI Intern – IPSR Solutions Ltd, Kerala

June 2025 – July 2025

- Performed data cleaning, analysis, and visualization using Python, Pandas, and Matplotlib.
- Built interactive Power BI dashboards to analyze large datasets and identify trends.
- Developed data visualization programs including charts and trend analysis reports using Python.
- Worked on RAG-based knowledgebase projects using n8n, Google Gemini embeddings, and Pinecone vector database.
- Created reports and dashboards to present insights and improve data interpretation.
